DOESN'T KNOW WHY HE WAS RECALLED

San Francisco, Dec. 27.-Fred D. Cloud, former United States consul at Mukden, who arrived here on the teamer Korea yesterday, discussed the report that his recall had been instigated by Japan because of the displeasure of that nation with his riticisms on its Manchurian policy. Cloud was inclined to believe tha his recall was in no way connected

with his criticisms of Japan. "Of the contents of my report," he said, 'I can say nothing. It was confidential and intended solely for the information of the state department. How the press got hold of it, I do not know. The first inkling I got of the publicity of my report was when the apanese papers came out with editorial protests against my criticisms and, when I was ordered home, they suggested that I had been recalled because I had displeased Japan. As a matter of fact Japan had no grounds o criticise my report, as it was confined to facts capable of proof and with which I thought it my duty to acquaint the state department.

Arrangements have been perfected for the wrestling match between Stanley Karp of Salt Lake and Geo. Anderson of Kansas City in Ogden on the night of January 6, 1910. The match is a catch-as-catch-can, best fessional wrestlers and, it is said by those who have the matter in hand, that it will more than likely be the best wrestling contest ever pulled off in Ogden City. The contest will be held in the New Ogden theater build-ing, on Twenty-fifth street.

Karp is training in Salt Lake, but Anderson will open training quarters in Ogden tomorrow. Arrangements have been made for a contest between the winner of this battle and Mike Yokel, the champion wrestler of Utah. Karp and Anderson, they say, are of about the same weight and build and that their contest will be for all there is in them. They are both anxious to have a go at Yokel.

The boxing contest between "Bird Leg" Collins, the negro boxer, and Pete Sullivan, the man of many battles and almost as many victories is bound to be one of the most interesting in the history of Ogden sports Both men are reported to be in fine condition, and both determined to win They have been training in Salt Lake but tomorrow afternoon the colored man will establish training quarters in this city. UNITED STATES DOES NOT DESIRE TO RULE NICARAGUA

New York, Dec. 27 .- "The United States has no aim of conquest in Central America and the countries there have nothing to fear from the activ ities of the great republic," says Di Juan J. Ulloa, president of the Inter national Sanitary conference, now in ession in Costa Rica. He expresse this opinion in a statement which he has recently given out with the object he says, of correcting a mass of mis information which is being circulated in Spanish-American countries.

"The alarming rumors which are being circulated among you," he writes to his people, "are grossly ex aggerated and inaccurate. The true feeling and thought of the United States is friendly. The Ogden fire department is now the possessor of a "nest egg" for the proposed state fund for disabled firemen. This "nest egg" is in the shape of a 850 check, a Christmas present from P. J. Moran, the Salt Lake contractor

The present was given to the fire boys here in recognition of the promp and efficient service rendered in quenching the flames that threatened The commissioners of Weber coun ty met in regular session this morn-ing and the forenoon hours were dethe entire destruction of Mr. Moran's asphalt plant on lower Twenty-fourth street, in the railroad yards. of the plant was destroyed, voted to routine business and the clearing up of everything connected with the closing year. through the prompt action of the fire Dr. Pidcock reported that smallpox department, a good many dollars in continued to flourish at Harrisville property was saved. Chief Paine and the other member: of the fire department of the city are appreciative of the gift and they have already decided to place the money at Those who have been ill are gradhe disposal of the state organization ually recovering and a strict quaranof firemen as a nucleus to a fund that the firemen of the state propose to establish for the aid of those who are disabled in fighting fire. This is the first money raised for that purpose and Ogden will have to be given credit or the initiative.

At the meeting of the last legisla-ture an effort was made by the firemen of the state to get the legisla-ture to establish a state fund for the benefit of the firemen, but it failed. The proposition was to enact a law providing for the use of a certain pe cent of the insurance collected in the state by the various insurance panies and underwriters. An effort in that direction will be renewed, says Chief Paine, at the meeting of the next legislature, the expectation being that the desires of the firemen will be realized. A state firemen's association has

been organized, its first meeting hav-ing been held in Ogden last summer, and the board of directors say the will take immediate steps to incorpor ate under the laws of the state Aside from the \$50 check, Mr. Mor. an sent the Ogden boys, a couple of

BLASTING THE GLACIER AT THE

Experienced Miners Are to "Shoot" Away the Danger Which Now Threatens Street Car Line.

Nearly every Ogden canyon car yeserday afternoon was filled with peole eager to get a glimpse at the beauliful glacier at the mouth of the cantheir trip yesterday, for today the work of breaking down the mountain of ice is in progress, and it is likely that, in the course of a few hours ime, the face of the ice body will be o disfigured that its beauty will be a

thing of the past.
Efforts were made a number of days following the slide to find men who would venture to tear down the icc bank, but none could be found. It was anticipated in the beginning that the work should begin at the bottom of the slide, but it was afterwards concluded that the undertaking would be so hazardous that men would not un dertake to accomplish it. The plan finally adopted for the removal of the ce bank was to begin the work of plasting from the top and move down ward.

"Billy" Wilson made a trip to Salt Lake to consult with Engineer L. L. Dagron of the Utah Light & Railway company regarding the removal of the The Rapid Transit company did not care to operate its cars over the road so long as the ice remained or the mountain side. "Billy" wanted the cars to run to the Hermitage. He laid the matter before the engineer and Dagron told him to go ahead, get men and do the blasting at the ex-pense of the Light & Railway comoany, Mr. Wilson secured the services of

wo experienced miners, and, powder and tools, they ascended the mountain this afternoon for the work The first blast may not be fired until uite late in the afternoon. The ground has to be looked over carefully to de ermine just where the blasting should begin, then holes will be drilled into

As soon as the blasting is started wo men will be stationed on either side of the slide with red flags to warn travelers of the danger.

The men who are doing the work are Ed Benson of Canyon road and a miner of long experience, and Jack Callahan, who has done much blasting on railroad contract work. The men are careful, and it is thought they will be able to accomplish the task of removing the mountain of ice without injury to themselves or the traveling public.

It is estimated that there are fully 500 tons of ice which will have to be removed in comparatively small quantities, and broken from the great mass so as not to cause the entire glacier to slip down in a mighty avalanche. Holes will be driven from the top of the ice bank and the ice broken off downward until the river bank is reached. Undoubtedly it will require number of days to do the work. The tope is to get it done before the ice begins to melt and slip away from its moorings.
